

# Thinking Like a Programmer

---

## Peanut Butter and Jelly Time

An important aspect of thinking like a programmer is to be precise when giving instructions. This is a tricky thing for most people since it is so unlike what you typically do in everyday life.

A classic exercise in learning this skill is to write out a list of step-by-step instructions for making a peanut butter and jelly sandwich.

Go ahead and do this now. When you're done, move on to the next section.
