

Thinking Like a Programmer

Key Terms

Below is a list and short description of the important keywords you have learned in this lesson. Please, read through, go back and review any concepts you don't understand fully. Great Work!

| Tag | Description |
|-------------------|---|
| Conversion | The process of changing or causing something to change from one form to another. |
| Logical Errors | A mistake in a program's source code that results in incorrect or unexpected behavior. |
| Imposter Syndrome | A psychological pattern in which an individual doubts their accomplishments and has a persistent internalized fear of being exposed as a "fraud." |
